

Community Service

Community Service provides an opportunity for students to enhance their occupational skills or enrich their lives through leisure studies courses. Courses run from a few hours in a one-day seminar to a number of sessions over several weeks. Courses can be offered on campus or at off-campus sites. There are no entrance requirements for community service courses. The Extended Education Department welcomes qualified instructors to apply and suggestions from the community for courses desired. For more information regarding community service contact ext: 741 or ext: 775.
