Endowed Named Scholarships

The passing of someone close to you is a time for remembrance, reflection, and recognition. Many people search for ways to commemorate the life of a husband, wife, child, dear friend, or family member and to make a lasting statement about what that person meant to them.

At Frank Phillips College, you can make a gift that will stand as a lasting memorial to a loved one while advancing our mission in a meaningful way. For a one-time gift of $20,000, you have the opportunity to create an endowed scholarship fund.

An endowment allows gifts to be made in perpetuity, as these assets are invested and the income is used for the purposes you specify. An endowment fund carries the name of the loved one and can provide general, unrestricted support to FPC or can be designated for a specific program.

For more information about opportunities for giving at FPC or to create an endowed scholarship to honor a loved one, please contact the Office of College Advancement at 806-457-4200, ext. 715.
Students receiving an Endowed Named Scholarship and/or a Private Scholarship must use the award while attending Frank Phillips College. Funds will not be disbursed to a student for transfer to another college or university, or for personal use.
If a FPC student is awarded an outside scholarship or grant which covers his/her tuition, fees, books, meals, or resident hall in full, the Endowed Named Scholarship will be awarded back to the specified scholarship. All scholarships at Frank Phillips College are established to aid FPC students while attending school at Frank Phillips College.

**Joel Douglas Adkins Memorial Scholarship**

Joel Douglas Adkins was born on July 1, 1988, in Canadian, Texas. He grew up in Stinnett and attended school in the Plemons-Stinnett-Phillips CISD system through the sixth grade before his family moved to Perryton, Texas, in the spring of 2001. Joel was a sophomore at Perryton High School at the time of his accidental death on May 21, 2005.

Joel was active in football, basketball, track, choir, and drama, and also participated in church youth activities. His easy-going nature, caring heart, and sense of humor endeared him to his classmates in Stinnett and Perryton. “He could always make you laugh,” a friend said of Joel days after his death. “He always put other people before himself and was a friend to everyone.”

Joel loved music and the Lord and, as a self-taught guitarist, played in a church youth group band.

One of the coaches said, “He was a great Christian kid.”

Joel’s grandparents, Doug and Wanda Adkins of Borger, Texas, established this scholarship to annually benefit a graduate from Perryton High School and a graduate from West Texas High School in Stinnett. The scholarships will target students who need extra assistance for their opportunities to attend college.

After his passing, Joel’s mother said, “He brought joy and laughter into our lives.”

Through this memorial scholarship, lives of others will be touched in Joel’s name and recipients will receive the opportunity to experience the joys of richer lives through higher education. Awardees may attend the FPC Borger campus or the Perryton Allen Campus.

An educated workforce is essential for our dynamic economy, particularly as Texas businesses continue to expand and new companies relocate to Texas.

PHSAA: Maurine Forbus Scholarship

Maurine Forbus, a native Texan and graduate of West Texas State College, taught math at PHS her entire 33-year career. Her first year was 1944; however, she stayed at home when her daughter was young, then resumed teaching. She taught math until she retired in 1985. The majority of her classes were Algebra II, Trigonometry, and the preparatory Calculus class, but also taught Physics and 8th grade math when needed. She was the consummate professional, taking her work home every night and grading papers at the kitchen table.

She cared deeply about her students, coaxing them to learn, teasing them about their social lives, and keeping up with their extracurricular activities. She coached UIL Slide Rule and, later, Number Sense, in which one of her students won at the state level.

After her students graduated, she enjoyed their visits back to her, their letters, and their successes. When a former student worked at NASA on Neil Armstrong’s space suit, she knew she had helped put a man on the moon. When a student graduated from college, she was so very proud. When a student failed to live up to his potential, she grieved.

A lifelong learner, Mrs. Forbus also studied the Bible, enjoyed traveling and learning about other cultures, played bridge, and watched birds. In 1991, she and her husband Joel moved to Kerrville to be closer to their daughter in Houston. For 11 years, they enjoyed summers at their Red River home, trips abroad, and making new friends in their church in Kerrville.

In 2001, she was diagnosed with pancreatic cancer and she died in 2003, the day after she turned 80. She lived to be 80 by sheer force of will—that same determination that caused her to take each and every student to heart and help him or her learn. She would have been very pleased to have a scholarship endowed in her memory.

All are deceased with the exception of P.D., who currently lives in Duncan, Oklahoma.

Raised with strong personal and family values, along with hard work ethics, this family demonstrated these values not only on the playing field but in the classroom and work careers.

They furthered their education by attending college on football scholarships. Bobby, Don, and Jimmie played college football at Texas Tech, Clinton played at West Texas State University, and P.D. played at Tyler Junior College.

This scholarship was established by the family of Mike Richardson to honor his memory by giving students a way to further their education.

Mike grew up in Vega, Texas, and graduated from Vega High School where he participated in band and athletics. He then attended Texas Tech University and received a BBA in accounting. He became a CPA and was involved in the oil and gas industry in Perryton. He was the Chief Financial Officer of Richardson Seeds, Inc., a privately-held, family-owned sorghum and seed development agribusiness. With Mike’s accounting expertise and business acumen, he facilitated the transition from a second-generation-operated company to a third-generation. With this transition, he was instrumental in guiding the company to become the largest private packaging sorghum company in the U.S.
Today, largely due to his efforts and foresight, Richardson Seeds, LTD, is the largest private packaging company of sorghum products in the world. While living in Perryton, Mike was an active member of the community, serving terms on both the city council and as mayor.

He volunteered at First United Methodist Church, with many opportunities for ministry, including cooking lunch for high school students one day a week. He and his brother annually distributed coats to the underprivileged in the Amarillo area.

One of the things Mike most enjoyed was teaching accounting classes for Frank Phillips College before a campus was envisioned in Perryton. He would have been so very impressed and pleased at how the campus has flourished and enabled so many people to get an education.

Mike had a love for family, music, and fishing. He was an avid reader. He enjoyed close relationships with many friends, and entertained friends and family with his unique wit and humor.

Evelyn Hubbard Memorial Scholarship

This scholarship was established by Donna Haddock Forbes in the fall of 2003, in loving memory of her longtime music teacher.

Evelyn Plunkett Hubbard was born in Wortham, Texas. She began playing the piano at the age of four. In her early years of formal instruction, she complained of the necessity of “note-learning” and scales, but with maturity she realized the importance of education and with it the “notelearning” and theory.

Her dream of becoming a concert pianist changed to being a wife, mother, and teacher when she married D. H. Hubbard. She began private lessons in a studio in Crane, Texas. Upon moving to Phillips, Texas, in 1940, the private lessons continued in her home.

In 1942, Mrs. Hubbard began her teaching career. She taught for 20 years in the Phillips schools, moving from elementary to middle school and on to the Phillips High School Choral Director. Her sweepstakes-winning choirs became legendary. During the time at Phillips, she also earned her Masters in Music Education from West Texas State University.

In 1962, Mrs. Hubbard became the Director of the Music Department at Frank Phillips College. She established the Plainsmen Combo which consisted of the FPC choir and students who played musical instruments. These students practiced on their own time under the direction of “Mother Hubbard”. The Combo played for FPC basketball games and performed for surrounding schools and civic groups.

The Combo eventually became known as The FPC Medicine Show. This show promoted FPC to many new and eager students.

In 1970, she became the Chairman of the Division of Fine Arts at FPC. Evelyn had the ability to build programs and to promote the abundant talent at FPC. Her dreams were realized on-stage when it required two nights to accommodate the crowds that attended productions such as the annual Hootenanny.
Mrs. Hubbard and FPC graduate Paul Biggs created the Phil-Originals. This group became known internationally. They sang for such events as Governor John Connally’s programs and the Lions International Convention in Chicago. The sponsor of this scholarship, Donna Haddock Forbes, was a member of this group. Mrs. Hubbard was a member of the 20th Century Club, the Music Club, Tri-City Concert, Texas Congress of Parents and Teachers, and Alpha Chi.

She was the organist/pianist for the Phillips and Fairlanes Baptist Churches for 50 years. She was awarded The Altrusa International Community Services Award in 1973.

Evelyn’s teaching and motivation of students was outstanding, but her greatest attribute was her ability to understand, encourage, and love her students. Many of her students reached goals they had never dreamed of.

Mr. Tilson worked for Phillips for a short time, then opened a grocery store in the Clearview Addition. He operated this store until about 1962, when he and his wife built a new home and antique store next to Westlawn Memorial Cemetery on the Fritch highway. He continued to operate the antique store until his death in 1983.

Several news stories were published over the years about his “western antiques”. He was a long-time supporter of civic and charitable organizations in Hutchinson County, including Girls’ Town, which later became Cal Farley’s Family Program.

Mrs. Tilson continued to live in the home until near her death in October of 1998. She was very active in the United Pentecostal Church and served in various functions with the Women’s Auxiliary.

The Tilson’s six children attended Borger High School. Lonnie and Patricia Woodfill Tilson were the first married students to attend Frank Phillips from 1955-1956. An article about them was published in the college newspaper. They then attended WTSU in Canyon where they received their degrees.
